

June 4, 1975 Wed.

Dear Vickie and Jim,

I hope everything went along fine on the trip to San Diego. You certainly got around alot and didn't have any spare time to get bored. I am going to get my hair fixed this morning so ~~so~~ I will mail this when I go out.

I have hired two boys to cut the lawn and it is just wonderful having it done for me. There is still plenty of yard work for me to do with the weed pulling which is constant and the trimming. I planted grass seed under the big fir tree and it should show signs by tomorrow of coming up. I don't think this typewriter is working just right.

Mary and the baby are going to Dusty Friday with Beth and Orm and their two children. The session is still going so Mike won't be able to see his child babtized, unless the session should end right away. It will be a long, hard ride over to Dusty and I just hope everything will go along fine. They plan to go at night so the baby will probably sleep most of the time. The time it takes is about six hours, probably even more.

I had a letter from Nellie and she said ~~she-said~~ nothing has happened yet on the estate and the lawyer said all one can do is wait until it comes up which may take some time yet. Nellie is leaving for Sweden the 3rd of August and she is hoping it will come up before she leaves as she has to appear in person and get the distributional papers, and ~~sign~~ some papers.

I think it is nice you are going to your high~~x~~ school reunion, Vickie. If you have time to come to Seattle, you know we would love to see you. I hope the shirts have arrived, Jimmy. It cert ainly takes a long time to have packages arrive.

By for now.

Love,

Mom.
